<p>Number of resident housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house residents of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows residents to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	2

Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) on-site audit of the KCI-Mobile Residential Reentry Center in Spanish Fort, Alabama was conducted on August 20-21 by Bryan K. Henson, a U.S. Department of Justice Certified PREA Auditor for adult facilities. Also, part of the audit team was Sheri Henson, a non-certified support staff member. During the on-site review, it was found that audit notices were posted in both Staff and Residential areas of the facility. Pictures of the audit notices were submitted six weeks prior to the on-site review also demonstrating the notices had been posted in both staff and residential areas. As of the date of this report, the Auditor has not received any correspondence by mail.

The Point of Contact established for KCI- Mobile completed the *Pre-Audit Questionnaire* and it was provided to the Auditor along with supporting documents contained on a flash drive approximately one week prior to the on-site portion of the audit. Pre-audit preparation by the Auditor included a thorough review of all documentation and materials submitted by the facility along with the data included in the completed *Pre-Audit Questionnaire*. The documentation reviewed included agency policies, procedures, forms, education materials, training curriculum, organizational charts, and other PREA related materials that were provided to demonstrate compliance with the PREA standards.

The Auditor conducted an in-briefing with the Director Lucy May and PREA Coordinator Terracina (Connie) Stewart-Davis to discuss the audit schedule and an overview of the audit process. Immediately following this meeting, the Audit team toured the facility with Director May. All areas of the facility were toured to include housing, bathrooms, intake, administrative, day room, phone areas, and outside recreational areas. It should be noted that with the small size of the facility, and since this is a reentry center, many of the residents were either out of the facility during the work day in the community working or job searching. At the time of the tour, there were 41 residents at the facility. The audit team spoke informally with the staff and the residents during the site tour. The auditor made note of cross gender announcements, interaction between staff and residents, the placement of 12 cameras at the facility and any potential blind areas. At the time of the site tour, 1 of the 12 cameras was inoperable. Immediately following the tour and for the rest of day one, the Audit team interviewed both staff and residents. The interviews were conducted in a setting that provided both security and confidentiality. The audit team remained at the facility on the 4-12 shift to interview evening shift staff and residents that had been out to their jobs during the 8-4 shift. On day two, the auditor continued to interview more staff by coming in early on the 12-8 shift to interview the

night shift staff. The resident count on the first day of the audit was sixty-seven (67), including six (6) on home detention that only report to the facility on a weekly basis unless prompted to report by the facility. The audit team interviewed a total of 21 residents, (18 random and 3 targeted resident interviews-2 LBGTI and 1 LEP) The facility reported no additional targeted residents available for interview and the audit team found no evidence of any additional residents that meet the criteria for a targeted interview. In addition, the auditor interviewed nineteen (22) staff, including seven (10) specialized staff, 12 random staff (representing all shifts and all posts), the facility director, agency head designee, and the PREA coordinator. This included every staff member that was at the facility during the on-site review. The Auditor also made contact with The Lighthouse Sexual Assault Program to discuss the interventions and support provided as Victim Advocates.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

KCI-Mobile Residential Reentry Center located in Mobile, Alabama and serves as a private, community custody half-way house for federal Bureau of Prisons (BOP) inmates. All of these residents are within months to reenter society with their average stay at six (6) months. Residents at Mobile are seeking adequate home and job placements to be approved by BOP. The facility houses both male and female, with 2 open dormitory units. One male dorm and one female dorm. The facility was designed for a capacity of seventy (70) residents and housed 61 on the first day of the audit, not including six (6) residents assigned to the facility on home detention, but do not stay overnight, and only report to the facility once a week or as requested by the facility.

Summary of Audit Findings

The summary should include the number and list of standards exceeded, number of standards met, and number and list of standards not met.

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

- Does Not Meet Standard** (*Requires Corrective Action*)

1. Documents: (Policies, directives, forms, files, records, etc)
 - a. Staffing Plan
 - b. Staffing Plan Annual Review
2. Interviews:
 - a. Director
 - b. PREA Coordinator

During the pre-audit review, the facility had submitted a Staffing Plan that included the staffing schedule with the number of facility positions to include minimum staffing numbers on each shift with a requirement to have one male and one female on each shift. In determining adequate staff, the Plan documented considerations were given to the required components listed in section (a) of the standard. Also, the Director was able to describe how each of the required components were considered when determining adequate staffing levels as well as video monitoring. The facility indicated through the questionnaire as well as interviews of the Director that they had zero occurrences where they had deviated from the staffing requirements. Interviews of the Director indicated the minimum staffing levels are monitoring through documented staff schedules and checked daily. The Director added that adherence to the staffing plan is accomplished through ensuring minimum numbers are maintained by replacing any staff from call-ins with same gender staff being called in to fill the shortage. If someone cannot be called in to fill a vacancy, the Director or other supervisor may fill the shift as a last resort. Documentation was provided of the annual assessment of staffing plan with PREA coordinator input and the assessment documented whether adjustments were needed to (1) The Staffing Plan; (2) Prevailing Staffing patterns; (3) The facilities deployment of video monitoring; and (4) Other resources available to ensure adequate staffing levels. This was supported by the interview with the PREA Coordinator.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

1. Documents: (Policies, directives, forms, files, records, etc)
 - a. KCI Policy Chapter 11 Searches and Contraband
 - b. KCI PREA Policy
 - c. Training Acknowledgement Forms
2. Interviews:
 - a. Random Sample of Staff
 - b. Random Sample of Residents

The KCI-Chapter 11 Searches and Contraband policy prohibits cross gender pat downs, strip and body cavity searches. There was no evidence through documentation or interviews that any cross-gender searches had occurred to include any cross-gender pat down searches of female residents. This was supported by interviews with random staff and random residents. The agency PREA Policy enables all residents to shower, perform bodily functions, and change clothing in private. The facility tour

supported showers that allowed such to occur with individual showers and curtains for each shower. The search policy also required staff of opposite gender to announce themselves when entering each housing area. This practice was observed while on-site. Interviews of random residents supports the above policy is followed regarding ability to perform such functions in private and cross-gender announcements. The search policy also prohibits searches for sole purpose of determining the resident's genital status. Interviews of random staff support they comply with policy. A review of staff training files and the pre-audit documentation did not support that security staff are being trained on how to conduct searches of transgender and intersex residents in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. The interviews of random staff support that staff do receive training in how to conduct cross gender pat down searches. Through a Corrective Action Plan, the agency has adopted the training curriculum developed by The Moss Group "Guidance in Cross Gender and Transgender Pat Searches". The facility has used the new curriculum to train all security monitors at KCI-Mobile. Training acknowledgement forms from the training were submitted to the auditor to demonstrate that security staff have received the training. Based upon this information, the standard is now found to be compliant.

 - a. Administrative (Human Resources) Staff

The facility does not hire or promote individuals who have engaged or been convicted of sexual abuse/assault in a confinement setting or in the community, or who have been civilly adjudicated of such an incident as verified through a review of 11 randomly selected staff files. Interviews of the Human Resources staff support that the agency considers any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents, as well as contact prior institutional employers for information on substantiated allegations of sexual

abuse or any resignation during a pending investigation of an allegation of sexual abuse. Does Not Meet Standard (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. The agency/facility does not conduct investigations related to allegations of sexual abuse. Administrative investigations are conducted by Federal Bureau of Prisons. Criminal investigations are conducted by Spanish Fort Police Department. KCI-Mobile PREA policy states that when appropriate the facility director shall request forensic exams be conducted by SAFE/SANE and efforts to provided SAFE/SANE shall be documented. The facility offers forensic exams without cost when required through Mobile Infirmary/Regional Hospital as was verified through the hospital emergency room. Interviews with the PREA Coordinator support that the facility provides victim advocate services available through The Lighthouse Sexual Assault Services Program. The facility provided an established MOU between The Lighthouse and KCI-Mobile for Victim Advocates Services. Contact was made with Lighthouse Sexual Assault Services Program and verified they are supporting KCI-Mobile and have advocates available 24/7. They also indicated they would accompany victims through the exam and investigatory process. At the time of the on-site review, there was no documentation provided by the facility indicating they had requested the investigative entities/agencies that conduct investigations of sexual abuse to follow the requirements of sections (a) through (e) of this standard. Through a Corrective Action Plan, the facility submitted documentation where the agency had requested both Federal Bureau of Prisons, (who conduct administrative investigations), and Spanish Fort Police Department, (who conducts criminal investigations) to follow the requirements of 115.221 (a) through (e) of PREA Standard 115.221. KCI-Mobile PREA policy states all employees shall receive annual training in the required components listed in section (a) of the PREA standard. After a review of the curriculum provided by the agency, all items except item (10) of section (a) were found in the curriculum. A review of staff files reflected documentation that staff had completed

and signed acknowledgements that they understood the training received. Interviews of random staff concerning PREA training indicated they had limited knowledge of the training curriculum provided. Through a Corrective Action Plan, the agency has adopted the employee training curriculum that was developed by The Moss Group that contained all required components, and added local information to applicable areas, then retrained all the staff at KCI-Mobile. Training acknowledgement forms from the re-training were submitted to the auditor to demonstrate that all staff have received, and understood the training they received. Based upon the new curriculum used, re-training of all staff, and a review of the training acknowledgement forms, the standard is now found to be compliant. Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. KCI PREA Policy states during orientation residents shall receive information on facilities zero-tolerance policy regarding sexual abuse and sexual harassment, how to report incidents or suspicions of sexual abuse or sexual harassment, their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents. The interview with intake staff member supported that material is provided in a format accessible to residents that may be limited English proficient, deaf, visually impaired, or otherwise disabled. This interview reflected that if the resident is not disabled or LEP, the resident is allowed time to read the information and the intake staff member goes over it. Interviews of random resident's support information is distributed to residents upon intake. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

1. Documents: (Policies, directives, forms, files, records, etc)
 - a. KCI-Mobile PREA Policy
 - b. Risk Screening Tool
 - c. Resident Files (Initial and Reassessments)
2. Interviews:
 - a. Staff performing Risk Assessment

- b. Random residents
- c. PREA Coordinator

KCI PREA Policy states offender shall be assessed during intake screening within 24 hours of arrival at a Keeton Corrections Inc. facility. A review of resident files found that the initial screening was completed within 24 hours of arriving at the facility in four of the six files reviewed. Given the standard requirement is 72 hours, substantial compliance is met for section (b). A review of the screening tool found that it screened for both victimization and abusiveness and the tool was in a yes/no format and had a scoring guide or range scale for yes/no responses which supports the objectivity of the screening tool for both victimization and abusiveness. The resident files reviewed, along with interviews of random residents and staff conducting risk screening determined that the facility was not conducting re-assessments within a 30-day period. Through a Corrective Action Plan, the facility revised the process to include a tracking log to help ensure reassessments are completed within 30 days of arrival. The facility provided documentation of reassessments samples submitted during the corrective action period. These samples were reviewed by the auditor and substantial compliance was obtained for this section of the standard. The interviews of staff performing risk assessments supported that an assessment would be conducted for any reason where it may affect the risk level. Interviews with staff performing risk assessment also support residents do not receive any disciplinary action for not responding to questions in the assessment. Interviews with the PREA Coordinator support that the facility does have appropriate controls on the responses to questions asked during the assessments. The assessments are kept in a file that is limited to only staff conducting assessments, and the electronic version in their system requires certain security access to pull up the questionnaire. This was tested on the staff monitor's computer and they were unable to access it.

Standard 115.242: Use of screening information

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.242 (a)

- Does the agency use information from the risk screening required by § 115.241, with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive, to inform: Housing Assignments? Yes No
- Does the agency use information from the risk screening required by § 115.241, with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive, to inform: Bed assignments? Yes No

115.242 (b)

- Does the agency make individualized determinations about how to ensure the safety of each resident? Yes No

115.242 (c)

- When deciding whether to assign a transgender or intersex resident to a facility for male or female residents, does the agency consider on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether a placement would present management or security problems (NOTE: if an agency by policy or practice assigns residents to a male or female facility on the basis of anatomy alone, that agency is not in compliance with this standard)? Yes No
- When making housing or other program assignments for transgender or intersex residents, does the agency consider on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether a placement would present management or security problems? Yes No

115.242 (d)

- Are each transgender or intersex resident's own views with respect to his or her own safety given serious consideration when making facility and housing placement decisions and programming assignments? Yes No

115.242 (e)

- Are transgender and intersex residents given the opportunity to shower separately from other residents? Yes No

115.242 (f)

- Unless placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting lesbian, gay, bisexual, transgender, or intersex residents, does the agency always refrain from placing: lesbian, gay, and bisexual residents in dedicated facilities, units, or wings solely on the basis of such identification or status? Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

1. Documents: (Policies, directives, forms, files, records, etc)
 - a. KCI-Mobile PREA Policy

2. Interviews:
 - a. Staff performing risk assessments
 - b. PREA Coordinator

KCI-PREA Policy states that information resulting from the risk assessment is used to inform decisions regarding housing, beds, work, education, and program assignments. Interviews with staff performing risk assessments and the PREA Coordinator indicated while KCI-Mobile does not have educational and/or program assignments, and residents mainly work outside the facility as a part of the reentry process, the risk assessment information is used to inform housing by placing any high-risk victims toward the front of the dorm and any high-risk abusers would be placed with adequate distance separating them from the high-risk victims. It should be noted that staff indicated that residents do have in house chore assignments and the risk information is considered in making these assignments in that each of the chores assigned are in areas of close supervision either by video monitoring or staff supervision. The facility reports no high-risk residents currently at the facility. The interviews with the PREA Coordinator did support that the facility would give serious consideration to transgender/intersex own views and make individualized decisions when looking at the safety of all residents and would consider on a case-by-case basis the housing of transgender or intersex residents. The showers set up to allow separate showering for all residents. They do not house LGBTI in dedicated wings. Based upon the above, this standard is found compliant.

Auditor Overall Compliance Determination

Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

1. Documents: (Policies, directives, forms, files, records, etc)
 - a. KCI-Mobile PREA Policy
 - b. Resident handbook
 - c. PREA Pamphlet
2. Interviews:
 - a. Random staff
 - b. Random residents

KCI-PREA Policy, the resident handbook and PREA pamphlet provides multiple internal ways for residents to report incidents, i.e. any staff member, grievance forms, contact the corporate office directly by phone or mail. Residents may also report incidents outside of the agency by contacting the Bureau of Prisons (BOP). The address and a number are posted on bulletin boards and in pamphlets available in the dayroom. Residents may also call 911 to outside law enforcement at no cost from a resident phone that can be checked out at the monitor's station and used anywhere in the dayroom that allows them to remain anonymous if requested. Residents may also carry personal cell phones. Interviews of random residents supported the methods mentioned above. Random staff interviews support that staff are required to accept reports in any form and document such reports. Also, that staff have methods in place to privately report incidents to include the same outside methods as residents.

Standard 115.252: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.252 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No

115.252 (b)

- Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA

- Does the agency always refrain from requiring a resident to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

115.252 (c)

- Does the agency ensure that: A resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA

115.252 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time (the maximum allowable extension of time to respond is 70 days per 115.252(d)(3)) , does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.252 (e)

- Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- Are those third parties also permitted to file such requests on behalf of residents? (If a third-party files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.) Yes No NA
- If the resident declines to have the request processed on his or her behalf, does the agency document the resident's decision? (N/A if agency is exempt from this standard.) Yes No NA

(N/A if agency is exempt from this standard.)
 Yes No NA
- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

1. Documents: (Policies, directives, forms, files, records, etc)
 - a. KCI 15.2 Emergency Grievance Alleging Substantial Risk of Imminent Sexual Abuse
 - b. Resident handbook
2. Interviews:
 - a. None

The resident handbook outlines the grievance process for residents and does not prohibit residents from filing administrative remedies for allegations of sexual abuse and supports standard provisions for sexual abuse grievances. KCI-Mobile grievance policy describes a procedure for filing an emergency grievance alleging that a resident was subject to substantial risk of imminent sexual abuse. It states the person receiving the grievance shall immediately forward it to the Director and the Director must take immediate action to protect the resident. The process ensures an initial response within 48 hours and a final decision within 5 calendar days. The initial and final decision must document the determination whether the resident is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance. The facility reported there were no grievances filed regarding allegations of sexual abuse during the audit period. The above policy also supported no disciplinary action for residents filing a grievance in good faith.

 - a. KCI-Mobile PREA Policy
 - b. MOU with Victim Advocate Program
 - c. Victim Advocate Flyer
2. Interviews:
 - a. PREA Coordinator
 - b. Random residents

KCI-Mobile PREA Policy requires the facility offer residents access to victim advocate services. Residents at KCI-Mobile are provided contact information through a posting to include a toll-free hotline number to Lighthouse Sexual Assault Program. Interviews with the PREA Coordinator support there is an established MOU, which was reviewed by the auditor. More than half of the residents interviewed understood that similar services are available noting the contact number is posted. At the time on the on-site review, related to section (b), there was no documentation provided to the auditor that indicated residents had been informed of extent of communication monitoring by facility and the extent of mandatory reporting required by the Victim Advocate Center. Through a Corrective Action Plan, the facility developed a Victim Advocate Flyer that provided details on the extent of communication monitoring by the facility and the extent of mandatory reporting required by the Victim Advocate Center. The Flyer is now posted for all residents and now demonstrates the facility is informing all residents of the required information as described in section (b) and now found to be compliant. **Recommend** the facility also add this information to the Resident Handbook.

They shall report any retaliation against someone who has reported such an incident. They shall also report any knowledge of staff who neglects to report the above incidents. Interviews of random staff supported that reporting obligations extend to any facility, not just an KCI facility as stated in their policy. **Recommend the agency revise their policy to include staff reporting responsibilities to any facility to further support the PREA standard.** Random staff interviews support they will not reveal information related to the incident unless there is a need to know. The facility has no medical or mental health staff. This discussion must also include corrective action recommendations where the facility does not meet the standard.  - a. KCI Mobile PREA Policy
 - b. KCI PREA Incident Follow-up interviews form
2. Interviews:
 - a. Designated staff member charged with monitoring for retaliation
 - b. Director

KCI-Mobile PREA policy indicates they have established policy to protect residents and staff from retaliation as required in each section of this standard. There were no incidents/allegations within the past 12 months that would have prompted monitoring responsibilities. The Director had awareness of different measures to employ in monitoring for retaliation as well as ensuring an investigation if retaliation occurs. The audit team interviewed the staff member designated by the agency/facility to monitor for retaliation which reflected that she had not conducted any monitoring for retaliation, nor did she have any knowledge of the steps included in the monitoring for retaliation plan established by the agency/facility. The facility has a form that is to be used to document such monitoring responsibilities. Although the facility has a policy that outlines each of the required steps for compliance in monitoring for retaliation, it is concerning to the auditor that the designated staff member indicated no knowledge of their designation/responsibility to conduct such monitoring when an allegation occurs.

Recommend providing training to the individual designated to monitor for retaliation to include a review of the PREA standard, the form developed for monitoring to ensure the staff member has adequate awareness in order to have the ability to complete their duties of monitoring when allegations occur.

1. Documents: (Policies, directives, forms, files, records, etc)
 - a. PREA Annual Reports
 - b. Agency Website
2. Interviews:
 - a. PREA Coordinator
 - b. Agency Head Designee

Interviews with the Agency Head Designee provided details on how data is used to assess and improve in all areas of PREA effectiveness. Interviews of the PREA Coordinator support that the data is reviewed for this purpose. The interviews also indicated that annual reports are approved by the CEO of KCI. However, at the time of the on-site review, the agency/facility did not produce an annual report to document a review of data collected for KCI-Mobile and assesses its effectiveness of sexual abuse prevention. With no annual report, the agency is unable to compare yearly data, or demonstrate the reports are approval by the agency head or posted such on the agency website. Through a Corrective Action Plan, the agency was able to review the aggregated data collected as demonstrated by including this data in the development of the 2018 PREA annual report. The 2018 PREA annual report was submitted and reviewed by the auditor. The report contained a section where the agency identified problem areas, on-going corrective action, as well as a comparison of data between the current year's data to the previous year's data. It contained an assessment of the agency's progress and the goals for the upcoming year for the agency. The report was signed by the agency president, approving the report and, along with the 2017 annual report, had been posted on the agency website for public viewing. Based upon this information, the standard is now found to be compliant.

Standard 115.289: Data storage, publication, and destruction

115.289 (c)

- Does the agency remove all personal identifiers before making aggregated sexual abuse data publicly available? Yes No

115.289 (d)

- Does the agency maintain sexual abuse data collected pursuant to § 115.287 for at least 10 years after the date of the initial collection, unless Federal, State, or local law requires otherwise? Yes No

1. Documents: (Policies, directives, forms, files, records, etc)
 - a. KCI-Mobile PREA Policy
 - b. PREA Annual Reports
 - c. Agency Website
2. Interviews:
 - a. PREA Coordinator

The KCI-Mobile PREA policy states all data collected shall be securely retained. Interviews of the PREA Coordinator support that all data collected is secured in the corporate office of the PREA Coordinator and maintained for at least 10 years in accordance with records retention. At the time of the on-site review, the aggregated data from all KCI facilities to include KCI-Mobile was not made available to the public through the KCI website. Through a Corrective Action Plan, the agency posted both the 2017 and 2018 PREA Annual Report with the aggregated data on the agency website making it accessible to the public. A review of the annual reports posted demonstrated that no personal identifiers were included in those reports. Based upon this information, the standard is now found to be compliant.
